How To Create an API Token in Goldcast

Tokens are disabled in Goldcast by default. Contact our [support team](#) to enable this feature for your organization.

On this page:

- Overview
- How to create the token
- How to delete the token

Overview

Personal access tokens in Goldcast function like ordinary [OAuth access tokens](#). You can use them to authenticate requests to the Goldcast API. Whenever a third-party application calls a Goldcast API endpoint, you must provide a valid API token. This article explains how to create and extract an API token in Goldcast Studio.

How to create the token

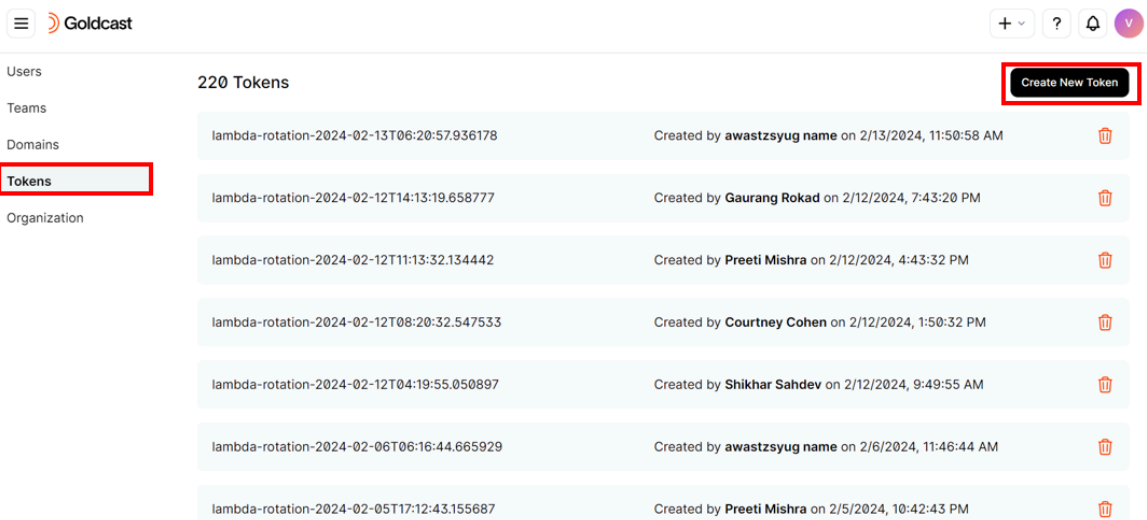

Follow these steps to create a Goldcast API token:

1. Login to [Goldcast Studio](#) using your credentials.

Note: If you have the [teams feature](#) enabled for your Goldcast organization, only organization admins can create tokens. Team admins will not be able to create or delete tokens.

2. Click the hamburger icon  on the top left and select **Settings** in the left sidebar.

3. Select **Tokens** and click the **Create New Token** button.

Token ID	Created by	Created at	Action
lambda-rotation-2024-02-13T06:20:57.936178	awastzsyug name	2/13/2024, 11:50:58 AM	
lambda-rotation-2024-02-12T14:13:19.658777	Gaurang Rokad	2/12/2024, 7:43:20 PM	
lambda-rotation-2024-02-12T11:13:32.134442	Preeti Mishra	2/12/2024, 4:43:32 PM	
lambda-rotation-2024-02-12T08:20:32.547533	Courtney Cohen	2/12/2024, 1:50:32 PM	
lambda-rotation-2024-02-12T04:19:55.050897	Shikhar Sahdev	2/12/2024, 9:49:55 AM	
lambda-rotation-2024-02-06T06:16:44.665929	awastzsyug name	2/6/2024, 11:46:44 AM	
lambda-rotation-2024-02-05T17:12:43.155687	Preeti Mishra	2/5/2024, 10:42:43 PM	

4. Name your token and click **Generate Token**.

5. The token value will be displayed only once. You'll not be able to check it later. So, make sure to copy-paste in a safe location.

Copy new token 'API access token'

Make sure to copy your personal access token now. You won't be able to see it again!

How to delete the token

1. Login to [Goldcast Studio](#) using your credentials.

Note: If you have teams enabled for your Goldcast organization, only organization admins can create and delete tokens.

2. Click the hamburger icon  on the top left and select **Settings** in the left sidebar.
3. Select **Tokens** and scroll to find your preferred token.
4. Click the delete icon.

API access token

Created by Vaishnavi Jai on 2/13/2024, 5:35:14 PM

5. Click the delete button on the confirmation screen to complete the action.

Are you sure?

This will break app integrations that are using this token.

Cancel

Delete

Note: Deleting a token is irreversible and will break any integrations using it. So, make sure to proceed with caution.
