

VAISHNAVI JAI

Sr. Technical Writer & Documentation Engineer

+91-9487558021 | vaishnavi.contentzone@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

SUMMARY

5+ years of experience in delivering product documentation, onboarding guides, video tutorials, and UX copy for enterprise B2B SaaS platforms. USP is building and managing internal documentation repositories and customer-facing knowledge bases that drive product adoption and measurably reduce customer friction. Leverages AI-augmented workflows and automation tools to transform manual, technical writing processes into scalable, AI-first systems.

SKILLS

- Technical Writing & Editing
- Information Architecture
- Knowledge Base Management
- AI-Augmented Workflows (Claude, Cursor IDE)
- Markdown, XML & DITA
- Microcopy & UX Writing
- Product Marketing & Release Notes
- Jira, Git, Confluence, SharePoint, Zendesk Guide, HelpJuice, Doc360, RoboHelp
- Learning Management & Training Videos

KEY STRENGTHS

AI-Augmented Workflow

Eliminating inefficiencies in documentation processes using AI agents

Cross-Functional Collaboration

Product, engineering, support, marketing & sales in Agile environments

Industry Expertise

B2B SaaS, HealthTech, FinTech, EdTech, GRC & InfoSec

Content Performance

Data-driven documentation repository and knowledge base optimization with demonstrated results

Customer Education & Enablement

Design and build scalable training programs that translate complex features into intuitive tutorials, demos, and other training assets that drive user success

EDUCATION

B.Tech: Information Technology

SSN College of Engineering, Chennai

PROFESSIONAL EXPERIENCE

Senior Technical Writer

[Scrut.io](#) | March 2025 - Present | GRC & Information Security SaaS

- Develop and maintain product documentation, help center articles, feature tutorials, walkthrough guides, and internal knowledge base to drive user adoption and reduce support tickets
- Optimize UX copy and in-platform messaging for improved user experience and product engagement
- Created and implemented AI workflows to eliminate documentation drift and set up a self-updating help center
- Collaborate with senior leadership to refine documentation processes aligned with business objectives

Technical Writer

[Goldcast.io \(Cvent\)](#) | July 2023 - February 2025 | B2B Event Marketing SaaS

- Built a comprehensive content strategy (help docs, troubleshooting guides, release notes, video tutorials, FAQs) that grew Help Center views 3x in 6 months
- Collaborated with product, engineering, marketing, and sales teams to align content with release cycles and GTM initiatives
- Evaluated and implemented proactive content strategies, improving documentation experience for internal and external audiences

Technical Writer (Freelance)

[CopyPress](#) | August 2021 - June 2023 | Content Marketing Agency

- Authored comprehensive technical documentation and deep-dive guides on cloud computing, DevOps practices, microservices, and related engineering domains.
- Developed articles adhering to brand voice guidelines and legal requirements across multiple accounts
